

Sir Ellis Kadoorie Secondary School (2016-2017)

6A (9) Manoj Kumar Karishma

Our New School Principal

Being a PhD holder from the University of Hong Kong, Mr. Brown is more than qualified to be the Principal of a multi-cultural school like ours. He has more than 30 years of experience in the education sector and is dedicated towards building the next generation by helping them in whatever means possible. He is the former Principal of Kowloon Secondary School and has expressed his happiness to have the golden opportunity to witness the holistic development of students from different parts of the world. Our new school Principal is nothing, but a humble, kind and passionate human being who is striving for perfection.

Plans to Improve Academic Performance

Although our school has seen many outstanding performances in academic studies, these are still certain amendments to be made in the school system, which can further improve the academic performance of the students. Our new Principal is all set to bring about these changes so as to ensure a promising future for our schoolmates. Mr. Brown has introduced many extra tutorial classes, which will be catering for the students who wish to score higher in the exams. Moreover, to prepare our students for the public exams, there will be tutorials as well as counselling so that they can prepare themselves mentally.

Aspiration to Broaden Student's Horizons

Our school has been one of the best in performing arts and other extra-curricular activities. To further develop our students' interest and talents, Mr. Brown has introduced many other E.C.A. clubs and sports teams and has promised to arrange for

professional training in these aspects. New dance rooms will be set up where students can practice dancing and attain training in different dance forms including Latin, Indian, African dance, etc. Moreover, after knowing that there are a lot of talented singers in our school, this will surely gift us with many famous artists in the future.

Modification of the School Campus

To provide us with a pleasing and relaxing atmosphere, our new school Principal has planned to modify one school campus and the garden will be set up by planting more flowering plants so that the fragrance can fill the surrounding. With his experience, Mr. Brown thinks that it is very important to provide students with a relaxing learning environment, so that learning will never be a stressful process for us. Many trees will also be planted, making our school campus green. With his efforts, MR. Brown is surely trying to do his best to provide us with a promising future.
