

Yazmin 1D (8)

The most popular teacher

Mr. Tam is our music teacher and he is very well-liked. He is very friendly and approachable, so we picked him for the interview.

Mr. Tam's most memorable moment as a student was a talent show. He was very nervous and scared but I'm sure he did great! As a music teacher, he knows a lot of unique instruments but his favourite instrument is guitar. He didn't have many jobs before teaching but he was an instrument tutor. He taught a bit of every instrument, but mostly guitar. He always has a passion for music, even as a student.

Most teachers are for respect from students but don't respect the students in return. Mr. Tam is not like that. He treats his students with respect and expects respect from the students. He loves his job as a teacher and he also loves working in SEK because of the students' love towards him.

A prime example of this is when we were interviewing him, students passing-by were smiling and waving at him, in the whole process.

His tip to all of us is to study hard and never give up. He knows times are hard but he says we can fight this together!

Among all of the teachers in SEK, Mr. Chan is his best friend. He is married with one child. When we were interviewing him, he was very nice, respectful and polite to us. We tried our best to act the same! We enjoyed interviewing him and would like to talk to him more.
