

Mysteries of the unexplained

In the middle of the sea, there was a man named John. John is a normal sailor on a fishing boat. He is not special, but he is currently very lost. Let's go back a few hours earlier.

John got up and got on his boat for routines everyday. As he was sailing, a storm came. He was trying not to fall into the strong waves. He watched as his compass rolled into the sea.

He decided to go in one direction and hope that he could find land. Suddenly, he felt a sudden chill as if he was being watched. But how could anyone be watching when he was alone in his boat and there was no land in sight. He walked to the side of the boat and looked down.

Under the sea, there were hundreds of glowing eyes looking at him. He could make out a dark shape that looked like an oversized whale. After a few seconds, the eyes disappeared and the dark shape dried further into the sea until he couldn't see it anymore.

After, it had disappeared, he saw land. He made it land and he discovers he had been away for a month. But he was sure that it was just one day. As he walked back home, he was wondering if he had hallucinated it or had it actually happened. Some people thought that the storm had sent him to another universe for a period of time, others thought that he might be lying. But, as there are no more sightings. We may never know what happened.
